

ICE JUST GOT SMARTER.

EXPERIENCE A BREAKTHROUGH IN ICE MACHINE TECHNOLOGY

Energy Efficient

Our patented, fully sealed evaporator and eco-friendly R290 refrigerant deliver maximum performance.

Cleaner, Safer Ice

TrueGuard® antimicrobial protection and a sealed evaporator help prevent bacteria, mold, and cross-contamination.

Advanced Diagnostics

Predictive diagnostics and a 4.3" touchscreen simplify maintenance by providing clear insights that reduce downtime and labor costs.

Next-Level Ice Monitoring

Integrated Time-of Flight™ technologies keep you in control with real-time ice level monitoring.

Ice Cube Sizes

Small (Half)
11 x 29 x 22 mm

Medium (Full)
22 x 22 x 22 mm

Large
29 x 29 x 22 mm

THE TRUE ICE ADVANTAGE.

KEY FEATURES

TrueNcapsuL8®

Patented, fully sealed sanitary evaporator for efficiency and cleanliness.

TrueTouch®

Smart board with 4.3" touchscreen and intuitive navigation. Predictive, proactive diagnostics ensure consistent ice availability.

True's Ice Level Monitoring

Precise measurement.
No thermostats required..

True's Scale-Resistant Water Sensor

True's proprietary pressure-based sensor is scale-resistant and unaffected by buildup.

True's Gravity-Drain Sump

Efficient mineral removal with gravity draining.

True's One-Piece Water Distributor

Durable design, no clips or loose parts to break or misplace.
