

When colors *come* True.

True[®]

Imagine a vibrant world where color enhances our exceptional products, in perfect harmony with your brand.

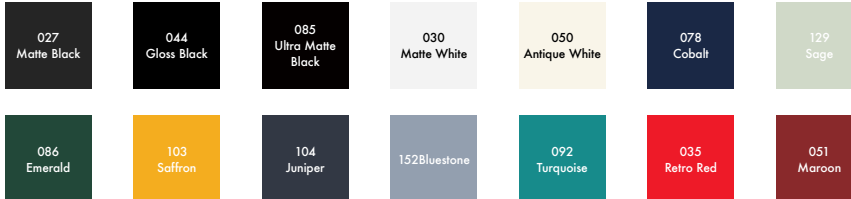

Our products can be customized with color to add a touch of sophistication into your business environment.

Color *Customization*

Choose from our extensive range of colors, ranging from subtle to vibrant shades. Alternatively, envision our exceptional, energy-efficient refrigeration products enhanced with a custom color inspired by your imagination - a color we can bring to life for you.

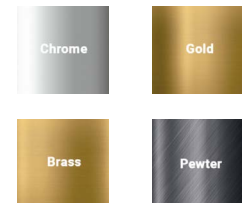

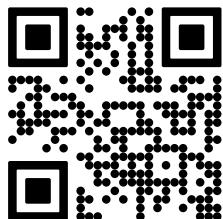

Cutting-edge *processes*

Only the best techniques meet the high True standards. We utilize cutting-edge metal pre-treatment technologies, robotic electrostatic sprayers, powder coating, automotive-grade liquid paints, and dipped coated metals to ensure a smooth, even, and resilient True color finish. Our products seamlessly integrate into your color environment with a signature of True quality.

Distinctive *detail*

Heighten the elegance of our color-enhanced cabinets and add an exceptional finishing touch to your design with our choice of attractive surfaces for your door handles, hinges and locks.

Make your color dream *come True.*
